Terms & Conditions

DELIVERY
Oasis Plants aims to deliver on the chosen week of the client. However, installation & collection is scheduled geographically

TREE BASES
Trees will be supplied either a green tree, with in-built watering system or plant containers

TREE CARE
Cut trees are like cut flowers, maintaining a supply of fresh water will help prolong the freshness of the foliage. It is the client's responsibility to maintain a fresh supply of water and instructions will be given to each client on installation. Hot, dry and dark conditions will speed up the drying out process of the needles and unfortunately, we cannot guarantee any interior tree delivered before December

ELECTRICITY SUPPLY
it is the client's responsibility to provide 240v mains supply to the base of each tree and we recommend a circuit breaker is fitted. We are unable to provide extension leads. Please note that several sockets are required for larger trees

HEALTH & SAFETY
It is the client's responsibility to ensure there are no trip or fire hazards

OWNERSHIP
All materials remain the property of Oasis Plants and any losses or damages will be charged for

COLLECTION
All trees will be collected early January and Oasis Plants will ensure the area is left clean and tidy

UNDECORATED TREES
Trees must be cleared of client's own decorations before collection

Merry Christmas & A Happy New Year!
